associated

connected with something else

"The failure of the printer was found to be closely associated with the upgrade of the operating system."

daisy chain

connecting multiple devices in a row or sequence

"The man daisy chained 3 portable USB drives to increase the storage on his laptop to 3 TB."

DIP switch

a set of electric switches using a dual in-line package design

"A DIP switch is an attractive alternative to a jumper setup because there are no parts to lose."
